FILE WRAPPER CONTINUING APPLICATION (FWC) TRANSMITTAL
(37 C.F.R. 1.62)

WARNING: This form cannot be used where the parent case may not be abandoned because the filing of a request under the FWC procedure "will be considered to be a request to expressly abandon the prior application as of the filing date granted to the continuing application." 37 C.F.R. 1.62(g).

WARNING: This procedure can only be used for a pending application prior to payment of the issue fee (37 C.F.R. 1.62(a)), except if the parent application was withdrawn under 37 C.F.R. 1.313(b)(5) "to permit consideration of an information disclosure statement under 1.97 in a continuing application." 37 C.F.R. 1.62(a).

WARNING: The filing of an application at the United States stage of an international application requires an oath or declaration. 37 C.F.R. 1.61(a)(4).

WARNING: The claims of this new application may be finally rejected in the first Office action where all claims of the new application are drawn to the same invention claimed in the earlier application and would have been properly finally rejected on the grounds or art of record in the next Office action if they had been entered in the earlier application. MPEP § 706.07(b).

WARNING: An application under 37 C.F.R. 1.62 is filed by making changes by amendment to the prior application, as it exists at the time of the filing of this FWC, and not by filing a new application. 37 C.F.R. 1.62(e).

WARNING: Filing under 37 C.F.R. 1.62 is permitted only if filed by the same or less than all the inventors named in the prior application. 37 C.F.R. 1.62(a).

A nonprovisional application claiming benefit under 35 U.S.C. 119(e), 120, 121 or 365(c) of a prior application may rely on a verified statement filed in the prior application if the nonprovisional application includes a reference to a verified statement in the prior application or includes a copy of the verified statement filed in the prior application if status as a small entity is still proper and desired." 37 C.F.R. § 1.28(a).

The last sentence of 37 C.F.R. 1.28(a) states: "Applications filed under § 1.60 or § 1.62 of this part must include a reference to a verified statement in a parent application if status as a small entity is still proper and desired."

Notice of Nov. 5, 1985 (1060 O.G. 27).

Notification of any change of status resulting in loss of entitlement to small entity status must be filed in the application prior to, or at the time of, paying the issue fee. 37 C.F.R. 1.28(b).

XIII. Relate Back

WARNING: *If an application claims the benefit of the filing date of an earlier filed application under 35 U.S.C. 120, 121 or 365(c), the 20-year term of that application will be based upon the filing date of the earliest U.S. application that the application makes reference to under 35 U.S.C. 120, 121 or 365(c). (35 U.S.C. 154(a)(2) does not take into account, for the determination of the patent term, any application on which priority is claimed under 35 U.S.C. 119, 365(a) or 365(b).) For a c-i-p application, applicant should review whether any claim in the patent that will issue is supported by an earlier application and, if not, the applicant should consider canceling the reference to the earlier filed application. The term of a patent is not based on a claim-by-claim approach. See Notice of April 14, 1995, 60 Fed. Reg. 20,194, at 20,205.*

NOTE: "Any nonprovisional application claiming the benefit of one or more prior filed copending nonprovisional applications or international applications designating the United States of America must contain or be amended to contain in the first sentence of the specification following the title a reference to each such prior application, identifying it by application number (consisting of the series code and serial number) or international application number and international filing date and indicating the relationship of the applications. Cross-references to other related applications may be made when appropriate. (See § 1.14(b))." 37 C.F.R. § 1.78(2).

WARNING: While this application under 37 C.F.R. § 1.62 cannot be a file wrapper continuation application of a provisional application, the nonprovisional application giving rise to this FWC filing could claim the benefit of a provisional application.
